ON DEMAND

DEMAND MORE

**from Your Time and
Attendance System**

Attendance on Demand™ is a web-hosted time and attendance service for highly secure, cost-effective labor management. The information you need is presented instantly – on demand.

Time and Attendance on Demand

- Supervisors, managers, and executives perform activities such as scheduling, budgeting, or leave management and manage their workforce easily using an Internet connection and a separate, secure dashboard view created just for them.
- Choose from comprehensive Benefit Accruals, Employee Self Service, Leave Management, and Kiosk modules.
- Attendance on Demand exports data into virtually any payroll system in a secure hosted environment.

Good-Bye to Buying

There is no software to buy, no upfront investments in licenses, servers or hardware. There is no need for costly maintenance. Powerful time and attendance management are at the ready, whenever or wherever employees, supervisors, or managers need to track and manage the workforce.

Monthly subscription rates are cost-effective. Pay only for the employees that you manage. Consistent and predictable costs make budgeting easier.

Attendance on Demand™

Labor management, cost management, time management ...
without expensive IT management

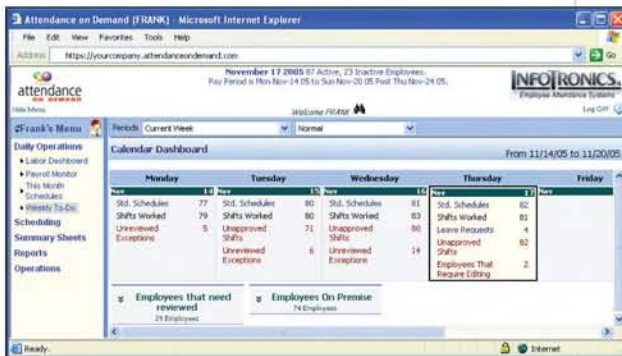

Employees and managers only need a browser and an Internet connection to access Attendance on Demand through a company-specific URL. Attendance on Demand features a straightforward user interface, and instantly accessible online training.

The following features are available through easy-to-use dashboard-driven views:

- Graphical dashboard gauges communicate data instantly without extensive navigation.
- Payroll monitoring presents real-time status so that errors are flagged and corrected before exporting to a payroll service or program.
- Comprehensive compliance management and flexible reporting adhere to important regulations such as Family and Medical Leave Act (FMLA) and Fair Labor Standards Act (FLSA).
- Extensive data filtering and drill-down capabilities quickly get to the heart of the data at the employee or enterprise level.
- Integrated time cards instantly capture employee time and management adjustments.
- Schedule Budgets control costs and fine-tune labor requirements
- Incidents and Points measure employee attendance behavior and enforce corporate policies consistently.
- Benefit Accruals automate the most complex rules for accumulating vacation, sick time, and other types of benefit leave.
- Leave Management automates the administration of paid time off.
- Payroll integration allows collaboration with your payroll provider.

Payroll monitoring flags errors that need correction before exporting to payroll systems.

Frontline supervisors view the information necessary to schedule and edit time cards for a group of employees.
